<b>Physical Address:</b>			

Who would have thought that the development of a database of HIV-linked Organisations would be such an enormous task! When we started the process of planning for the Limpopo Masibambisane Summit we gaily promised that as part of the summit we would produce a database...

The Masibambisane Summit is a 4-day conference aimed at civil society Organisations in the Province, with the intention of developing relationships between CBO's and NGO's, but more importantly, with Government departments. During this time in February, all 250 Organisations attending the summit had the opportunity to complete their details for the Database. Those who were not present have had telephonic interviews...Although we have endeavored to produce a fully comprehensive directory of all Organisations and services, there may be errors and omissions as a result of changes in information. If so, please bring these to our attention for correction. We hope that there will be more updated directories in the future! Any comments and feedback would also be appreciated.

There are now over 500 entries in this first published database in the Province. The database has been funded primarily by Irish Aid as part of research into the Networks in Limpopo, and we are very grateful to them. They share our vision that Civil society and Government Departments can work together in a way that will improve co-ordination and co-operation towards the improvement of lives of people especially in impoverished rural communities in the Limpopo Province.

We hope that we have gone some way in assisting CBO's, NGO's, donors and contacts to see what exists in the Province and all the wonderful work that is being done by so many caring people in mostly marginalized communities. Also that it will contribute towards building relationships and friendships in the spirit of Ubuntu.

Many people worked on this "publication". It would be difficult to name everyone, and every contribution has been valuable, and for that we at CHoiCe are very grateful. Particular mention must be made to all those who contributed their databases for inclusion, as well as to all the Organisations who answered endless questions, sent faxes and posted information thank you all for your contributions. Thanks, as always to all the donors and funders who have supported not only the Summit but all the activities that are carried out throughout the Province. We could not do this without you!

A special thanks to the Masibambisani team: Kate, Susannah and Thomasin who have done all the hard work with phone calls, lay out and distribution.

Fiona MacDonald  
Director  
CHoiCe Trust
